

Hello from Italy with my 280CE

Post by "Lucian_kel" of Mar 22nd 2020, 5:46 pm

Hello Tom, I'm near Garda Lake. In the summer, I trip the area, but for that landscape I prefer my Audi 89 Cabriolet...

Usually I see a lot of old Mercedes with the German license plate in my zone. If someone needs help (for the small things), I can offer my support. Five years ago I discovered my passion for the "old stars" and from there, I always learn and discover more beautiful things about the real engineering world of real cars.

I have a little normal garage where I try to resolve the problem of "my precious". Until now, I succeeded to get my M110 engine on the factory standards. It's an old lady witch offer me a big smile, every time when I get on the steering wheel. It's that simple... 😊
