Thank you. For the paint...it's not hurry, the car stays always in the garage and is driven only in good weather. I will try to see if the original paint can be saved but on the top even the colour is not at maximum, thanks for the advice.

I done some work under the car, if someone want to see, I can post some photo's (maybe this area it's not for that, I don't want to violate the rules of the forum).

Greetings, Lucian.
